TARIFFS

RESOLUTION

New Delhi, the 14th November 1953

No. 42(1)-T.B./53.—The Tariff Commission has submitted its report on the continuance of protection to the Fountain Pen Ink Industry. The Commission has referred to the progress made by the industry since the grant of protection and the increase both in its

rated capacity and in actual production, while the quality of Indian ink has shown considerable improvement. The fair ex-works price of the indigenous product is according to the Commission only slightly higher than the landed cost without duty of the imported product. The main handicap of the Indian industry is consumer's prejudice, but the Commission considers that its disadvantage in this respect is not such as cannot be off-set by the normal revenue duty. Taking into account all these factors, the Tariff Commission has made the following principal recommendations:—

- (i) Protection granted to the Fountain Pen Ink Industry need not be continued beyond 31st December, 1953. If at any time, the industry finds itself unable to meet foreign competition, it may apply to Government for a fresh examination of its case.
- (ii) The Central and the State Governments should as far as possible purchase indigenous ink only.
- (iii) The National Chemical Laboratory and the Industry should collaborate in improving the quality of indigenous ink still further. The manufacturers should make arrangements for the testing of their raw materials and finished products in their own factories and also get their products tested by Government laboratories like the Alipore Test House. The State Governments should provide facilities for testing the indigenous product at their laboratories at a reasonable cost.
- (iv) All units, particularly those producing foreign brands, should clearly mark their products both on the bottles and on the paper cartons as "made in India".

2. Government accept the recommendations of the Tariff Commission. Necessary steps will be taken to implement them as far as possible.

3. The attention of the industry is invited to recommendations (iii) and (iv).
